STATE ALLIANCE BUSINESS AGENCY.

Conducted by T. Ivey, S. B. A. Iron market still unsteady. Not advance in nails. Subject to change at any time.

A brother writes: "I want 500 lbs of good hindes, and will give 4 to 5c. for green and 6c. to 7c. for dry. They must be good and sound." Let some brother collect these hides at once, and notify the Agency.

MACHINE NEEDLES -In ordering sewing machine supplies, be sure to send old parts for samples. When ordering needles, also specify sizes desired, as well as to send samples. We give you on this page a list of net prices.

Our Richmond, Va., cattle, sheep and hog house writes as follows: "Had about 300 cattle on market and all sold -prices, 23 to 5c.; a few extra a little higher; most sales 3 to 41, hogs 6 to fat sheep 3 to 31, lamts 4 to 51. When you desire to make a shipment write for address and directions.

SHIP WOOL, - These having wool to be manufactured will ship to T. Ivey, S. B. A. Liberty, N. C. having your own name plainly written on tag, or package. Send instructions and bill of lading to us at Raleigh. If you will follow these directions we can keep track of all shipments and be of service to you in tracing lost packages and adjusting discrepancies.

Ship vegetables, fruit and produce

T. Ivey, S. B. A , Boston. " New York. " " Pittsburg, Pa. " " Baltimore, " " Richmond, Va. Mark distinctly and place your

own name on package, then notify the agency at Raleigh of ship ment. We can not be responsible for consignments unless these simple directions are followed. When you make first shipment, then our agents will keep you posted as to prices.

Use Care in Shipping -Recently a party shipped a coop of 94 hens to Raleigh. Sixteen were dead on arrival; 18 alive, but in bad shape. They were shipped in a wooden coop by freight. The coop was not open enough on sides and ends, and too many were put in the coop. Extreme hot weather and crowded condition of hens caused their death. Had they been sent in two coops with more ventelation, the freight would have been no more and they would probably have come with out loss, and not have been attended with such cruelty.

FRUIT TREES -It is a common error that our brethren make of buying fruit trees through traveling agents. Traveling agents always have to make their expenses besides a large salary. There is probably a greater loss in delivering trees sold by agents, and hence in collecting, than in any other class of goods. There seems to be a general mistrust between the agent and the customer—the customer seldom feels sure that he will get what he has ordered and the agent expects to lose some sales. So that those who do pay have all this loss and misplaced confidence to pay for. We have arranged with one of the best nurseries in North Carolina to furnish trres well acclimated at 10c, each less 15 per cent., to customers when orders are placed through State Agency. Write for descriptive catalogue, and see our variety before placing orders elsewhere.

WHAT WILL THE HARVEST BE?-We have arranged for the shipping of fruit, vegetable and produce to Northern markets. If our plan is not perfect, it is not for lack of thorough investigation and thought on our part. In making this arrangement, there were several points to take into consideration. First, we want to touch with our goods a number of principle cities; second, we want at these places good, reliable agents to receive our consignmeets, sell and remit to us; third, we do not want to give these agents the benefit of free advertising to build up atrade in their own name The first we can easily do, and other cities will be added to the list when necessary. The second we have left no stone unturned to accomplish, and have selected agents of good reputation, thoroughly established in the commission business, and whose commercial standing, including assets and business habits, as reported by the mercantile agencies, is entirely satisfactory. The third we accompfish by shipping to our own address at the various points, and lodg ing with these agents, and also with transporting companies centering in Standard A, white, conf't'rs...... 494 Gla consignments to the said agents. agent will receive, sell, pay Granulated Norf'k reight and make returns through Franklin B.
California B
Keystone XL this office and will keep the shipper posted as to prices. Itis useless to say that every package White maple drips, Philadelphia......

supped must be marked distinctly, Livey S B A, Pittsburgh, Pa, (or White honey Other city) with the name also of ship-Per. Then we expect you to notify this office promptly of shipment. All shipments made in this way, will be absolutely safe, if ordinary precautions are used Now, brethren, ALLIANCE MEN, will you try it? We shall see.
